

REGULATORY ASSISTANCE

EHS Consulting for Ohio Industry

Founded in 1974, Trinity Consultants helps organizations overcome complex, mission-critical challenges in EHS, engineering, and science through expertise in consulting, technology, training, and staffing. We support clients in geographies worldwide and across a broad range of sectors including industrial, energy, manufacturing, mining, life sciences, and commercial/institutional.

Trinity established the Columbus, Ohio office in 2003 to better serve our clients in Ohio. Since then, Trinity has opened an office in the greater Cincinnati area in 2004 and in Cleveland in 2017. Trinity is now recognized as a leader in providing environmental consulting

services to Ohio industry, serving a wide range of industries, including but not limited to:

- ▶ Aluminum Manufacturing
- ▶ Building Products
- ▶ Chemical
- ▶ Electrical Power
- ▶ General Manufacturing
- ▶ Oil and Gas
- ▶ Petroleum Refining
- ▶ Pipelines and Terminals
- ▶ Steel Manufacturing
- ▶ Surface Coating

Air Quality Expertise

Whether constructing a new industrial facility, expanding an existing facility, or modifying operations, owners and operators may be subject to air quality permitting requirements. Effective air permitting requires extensive practical experience in all aspects of air quality analysis and regulation. Trinity has completed more than 2,000 projects for Ohio industries. Some common project types are listed below:

- ▶ Major New Source Review (NSR) Permitting, including Prevention of Significant Deterioration (PSD) and Nonattainment New Source Review (NNSR) permitting
- ▶ State Construction Permitting, including Permit to Install (PTI), Permit to Install and Operate (PTIO), and Federally Enforceable Permit to Install and Operate (FEPTIO) applications
- ▶ Title V Operating Permit applications, including initial applications, renewals, and modifications
- ▶ Ohio Compliance Reporting, including deviation reporting, compliance certifications, malfunction reporting, and Fee Emission Reporting (FER)
- ▶ Federal Regulatory Compliance Reporting - NSPS, MACT/GACT, and GHG
- ▶ Air Dispersion Modeling, including both PSD and state modeling for criteria pollutants and air toxics

Agency Relationship

Through the completion of thousands of air quality projects in Ohio, Trinity has acquired the practical experience that is critical when negotiating with the Ohio Environmental Protection Agency (Ohio EPA). We have developed close working relationships with key Agency personnel which allow for efficient review of our clients' permit applications and faster permit issuance timelines.

Water Quality Expertise

The Clean Water Act (CWA) establishes regulatory requirements applicable to discharges of pollutants to “waters of the U.S.” Statutory requirements include the need for discharge permits and associated sampling and monitoring. Trinity's Ohio offices can assist industry with permitting and compliance in numerous water quality areas, including:

- ▶ National Pollution Discharge Elimination System (NPDES) permits
- ▶ Pre-Treatment permits for indirect discharges
- ▶ Stormwater Permitting and Stormwater Pollution Prevention Plan (SWPPP) development for both construction activities (CGP) and industrial activities (Multi-Sector and Individual permits)
- ▶ Preparation of Spill Prevention, Control, and Countermeasure (SPCC) Plans
- ▶ Preparation of Facility Response Plans (FRP)

EHS Compliance Auditing

As a result of our extensive permitting experience and in-depth knowledge of Ohio and Federal environmental regulations, Trinity is ideally suited to help Ohio industry with compliance and due diligence audits. A comprehensive audit helps organizations ensure that all applicable regulations have been properly addressed and identify and resolve any problems in a timely manner. A compliance audit is also valuable as a means of assessing potential liabilities related to ownership transfer.

Other Areas of Expertise

Trinity serves a broad cross-section of industries and provides a wide array of EHS compliance support. In addition to those detailed above, Trinity's Ohio offices are also able to provide consulting support in the following areas:

- ▶ Emergency Planning and Community Right-to-Know Act (EPCRA), including SARA 312 – Tier 2 Reporting and SARA 313 – Toxic Release Inventory (TRI) Reporting
- ▶ Risk Management Program (RMP) support
- ▶ Odor and noise compliance support
- ▶ Method 9 visible emissions evaluations
- ▶ Waste reporting, compliance, and auditing support
- ▶ Chemical market regulatory compliance support (i.e., Toxic Substance Control Act (TSCA) and other international chemical trade programs)

Even if you do not see a service listed on this sheet, we encourage you to reach out to our local staff at the numbers provided below. We would be more than happy to answer any questions you have and point you in the right direction.
