

UTAH STORMWATER PERMIT QUICK FAQs

Stormwater General Permit Issuance Date:
12/31/2018

Expiration Date:
12/31/2023

NOI Required to Continue Coverage:

NOI must be submitted within 30 days of expiration.

Fee Required / Fee Amount:

Annual fee of \$250

Any Expected Changes with Permit Renewal:

Previously, In order to disperse permit renewals so that approximately the same number of industrial stormwater permits come up for renewal each year, the MSGP was divided into five Groups. This is being re-aligned to be consistent with the expiration

Anything Interesting or Different than EPA MSGP?

UDWQ recently decided that sources that maintain an individual permit and have both industrial point source discharges and stormwater discharges associated with industrial activity now have to obtain both an individual UPDES permit and seek coverage under the Utah MSGP separately. So going forward these facilities will maintain two permits.

Plan Required to Be Submitted to the Agency?

No, only upon request

Visual Monitoring Required?

Yes Quarterly

Any other Monitoring Applicable to all Sources (not sector specific monitoring):

Monitoring is sector specific

Minimum Inspection Frequency:

Quarterly

Annual Report / Due Date:

Sector specific monitoring reports and due dates

Training Frequency:

Annual

Certification by Qualified Professional:

No

Disclaimer: This is not intended to be an exhaustive list of state stormwater permitting information. Please check with your state and/or local regulatory agencies for your facility-specific reporting requirements and deadlines.
