

The Premier Resource for High Level Safety, Health and Environmental Services

SafeBridge provides the “Potent Compound Safety Triangle” of services to support the safe manufacture of pharmaceutical products and specialty chemicals.

Industrial Hygiene

- ▶ Facility and equipment design reviews
- ▶ Control assessments
- ▶ Air monitoring and surface sampling
- ▶ IH data interpretation
- ▶ Containment verification
- ▶ Potent compound training
- ▶ Program evaluations
- ▶ SafeBridge certification
- ▶ Laboratory animal allergens

Toxicology

- ▶ Acceptable/Permitted Daily Exposures (ADEs/PDEs)
- ▶ Occupational Exposure Limits (OELs)
- ▶ Categorization/Banding (OHCs/OEBs)
- ▶ Extractable and leachable assessments
- ▶ Product contamination assessment
- ▶ Safety Data Sheets (SDSs)
- ▶ Environmental fate and effects studies

Industrial Hygiene Analytical Chemistry

- ▶ Sensitive analytical methods as low as picograms/filter
- ▶ HPLCLMS methodologies
- ▶ Air and surface limit methods
- ▶ Method validation
- ▶ Air and surface sample analysis
